

Thank you from the guest editors on behalf of the *African Journal of Health Professions Education*

The *AJHPE* reviewers

AJHPE called for manuscripts focused on nursing and midwifery education in Africa aligned with the 'Year of the Nurse and Midwife', as declared by the World Health Organization. More than 30 manuscripts were submitted for this special focus issue by authors from all over the continent.

On behalf of *AJHPE*, we would like to express our appreciation towards the following peer reviewers who put in hours of work, especially during this difficult time, painstakingly evaluating the quality and importance of the submitted manuscripts, providing important insights to authors and influencing editors' decisions. These peer reviewers influence the knowledge economy in nursing and midwifery education and their role has been pivotal for this special focus issue. We sincerely appreciate all your efforts and your readiness to serve in this role – thank you.

Mrs Annatjie Peters, Foundation for Professional Development, South Africa

Dr Elize Venter, Foundation for Professional Development, South Africa

Dr Mike Kagawa, Makerere University, Uganda

Ms Ansie Benjamin, National Health Training Centre, Namibia
